

PRESS RELEASE - FOR IMMEDIATE RELEASE

Plasma Air International Helps Washington State Casino Reduce Odors and Improve Indoor Air Quality

Smoker-Friendly Lucky Dog Casino Resort Utilizes Plasma Air's Air Purification Solutions to Generate a Healthier Indoor Air Environment, Resulting in Zero Odor Complaints

Stamford, CT, USA, April 11, 2017 – [Plasma Air International](#), the leading innovator in indoor air quality solutions, announces that it has enabled [Lucky Dog Casino](#) to manage the presence of tobacco smoke for a healthier indoor air environment. Utilizing Plasma Air's cutting-edge [bipolar ionization technology](#), the casino significantly improved its Indoor Air Quality (IAQ), resulting in 100 percent reduction in customer odor complaints.

Lucky Dog Casino, located just north of Shelton, Washington, on the Skokomish Reservation, is wholly owned by the Skokomish Tribe of Washington State and caters to both smoking and non-smoking patrons. Upon receiving numerous complaints regarding tobacco smoke and associated odors from customers and employees, the casino turned to Plasma Air for an effective solution to reduce the harmful and unpleasant effects of cigarette smoke, resulting in a superior gaming experience.

Following the implementation of Plasma Air's air purification system, complaints regarding cigarette smoke and odors ceased entirely, and employees reported a higher level of comfort during shifts. As a result of this new, healthy environment, both smoking and non-smoking patrons extended their stay at Lucky Dog Casino without feeling uncomfortable or needing to step outside of the facility for fresher air.

“Since installing the Plasma Air system, we have received zero odor complaints from customers and our employees also noticed an immediate improvement in air quality, stating that their clothes no longer smelled of smoke after the workday,” explains Peter Robb, Director of Operations at Lucky Dog Casino. “My advice to other casinos looking for an air quality solution? Talk to Plasma Air first, and you'll see quickly that others don't even come close.”

“We are thrilled to hear of the incredible success Lucky Dog Casino has experienced with our air purification system,” comments Larry Sunshine, President, Plasma Air. “We also look forward to learning of their increased revenue resulting from the significantly improved air quality in the casino.”
